Just info. I was handling and not through Mark. But no biggie.

Thanks,
Chris

Chris, Mark: New questions from Tim Burgess. Can you supply answers for either, and I will send along?

Subject: More Questions

CAUTION: External Email

My piece for Crosscut is divided into two parts; the first day will be stats related to 911 calls, crime rates, and response times; the next day will focus on change/transformation.

Can you help me with these questions, please?

- * How many police officers are on duty, on average, at any one time by precinct?
- * What percent of the time are all patrol squads fully staffed? (This may be more difficult to answer.)

These two questions are important for the context I'm painting compared to the west coast comparison cities — Sacramento, San Jose, San Diego, Portland, San Francisco, and Long Beach.
